INTERNSHIP

BYTES INDIA SOFTWARE SERVICE - MERN STACK WINTER INTERNSHIP DEC 2025

Gained hands-on experience in developing full-stack web applications using the MERN stack. Independently built a user-friendly system to improve efficiency and workflow. Implemented backend logic and database integration for secure and smooth operations.

PROJECT

BookMySeat – Bus Ticket Booking System 2025

Developed a full-stack bus ticket booking web app (MERN stack) with user/admin roles, featuring bus search, real-time seat selection, fare calculation, booking management, and coupon integration, along with responsive UI and RESTful APIs for authentication and operations.

Placify-Placement Management System 2025

Developed Placify, a full-stack Placement Management System to manage student records, company details, and placement activities efficiently. Implemented placement tracking, department-wise management, and centralized data handling to streamline the recruitment process. Built using React.js, Spring Boot, PostgreSQL, and REST APIs.

EvalUI 2026

Implemented an AI-powered feature in the Tutor Dashboard that automatically generates coding questions from uploaded HTML, CSS, and JavaScript solutions. The system produces problem descriptions, starter files, allowed libraries, evaluation rules (DOM, CSS, interaction tests), and rubric-based scoring. Built with React frontend and Node.js (Express) backend using AI APIs, with auto-fill UI and editable outputs for tutors.
